

SureColor SC-F9400 dye sublimation printers

Superior performance
Exceptional quality

EPSON[®]
EXCEED YOUR VISION

Enhance your business with flexible, quality printing

The SureColor SC-F dye sublimation series delivers speed, strength and productivity. The series offers a complete business solution by combining hardware, ink, media and software.

The series is developed entirely in-house by Epson to deliver innovation at every level – for superior textile, soft signage, interior and promotional printing, whether for sports, fashion, home decor or promotional applications.

Match your business needs with a choice of models in formats up to 64in (1625mm), printing at up to 108.6m² per hour, with the added option of High Definition HDK black ink for specialist fashion and apparel printing. The range's anti-dust design avoids misprints and you don't even need to stop printing while you refill the ink.

Add Epson's comprehensive service and support, and you have a complete printing solution with the quality and flexibility to meet your every business need.

Supporting you all the way

Peace of mind

We pride ourselves on developing Epson products that work in harmony with each other so you always achieve excellent results.

Ease of use

Our innovative technologies, such as automatic printhead maintenance and advanced tension control, allow you to expand production capacity and avoid costly downtime.

Service and support

We offer a standard one-year warranty and a choice of extended service options to suit your needs.

Future-proof

The SureColor SC-F dye sublimation series is supported by Epson's Independent Software Vendor community, so additional applications are always being developed, and always available.

Realise new business potential

The SureColor SC-F dye sublimation series helps you get the very best results for your business. Whether you're looking for unwavering productivity in high-volume apparel printing or outstanding quality on intricate details for fashion and home decor, the series delivers on your requirements.

Vibrant sports apparel

Produce high volume football shirts, cycling wear, swimming wear and much more with the SureColor SC-F dye sublimation series. Choose from standardised designs you can rely on and take advantage of high productivity to lower your total cost of ownership of the printer. Brings your designs to life with vivid fluorescent inks, available with the SC-F9400H.

Attractive promotional items

Offer the personal touch with high quality printing for all types of promotional items, from phone cases and bags to mugs. Photo labs, online retailers and manufacturers will be proud of their high quality products, while assuring their business enjoys a low total cost of ownership with the SureColor SC-F dye sublimation series.

Desirable decor

Interior designers and brand owners are assured both quality and sharp photo-realistic detail that suits styling for commercial or domestic spaces. The SureColor SC-F dye sublimation series meets any print requirements for producing curtains, blinds, upholstery, cushions and ceramic tiles, as well as printing on hard substrates using a polyester coating.

Colourful fashion design

Let your creativity run free using our wide colour range to produce high quality results. For fashion designers and entrepreneurs, the SureColor SC-F dye sublimation series delivers colour stability and high definition blacks. Maintaining our printers is quick and easy. Whether you're printing a single garment or a longer production run, the series is ideal for dynamic and demanding requirements on a wide range of textiles.

Outstanding soft signage

Make sure your message is clearly understood with large format signage that really stands out. The SureColor SC-F dye sublimation series allows print service providers, reproduction shops and advertising agencies to create soft signage using polyester fabrics.

Innovate with the SureColor SC-F dye sublimation series

Take creativity to new levels with our SureColor SC-F dye sublimation series. Choose the best model to match your volume, size and format requirements. Enjoy seamless performance and complete reliability.

SureColor SC-F9400

Epson's SC-F9400 64" dye sublimation printers boast a wider colour gamut thanks to additional fluorescent yellow and pink inks, enabling you to take your designs to the next level and into new markets like sportswear and soft signage.

With a variety of productivity-boosting features, including increased ink volume and Epson Edge Print Software, these printers guarantee high output as well as high quality.

Fluorescent ink

Two new fluorescent colours offer many more colour permutations - ideal for businesses wanting to expand their offering into eye-catching sportswear.

The total package

Epson offers the complete solution – printer, inks, substrates, software and support. Epson Edge Print Software is included as standard, and this easy-to-use, feature-rich software helps speed up printing and increase output.

High productivity

The SC-F9400 have a maximum speed of 108.6m²/h and come with a post-heater to improve drying capability. An improved take-up system with highly accurate registration also helps boost productivity.

Larger ink packs

The CMYK ink pouches have increased from 1-litre to 1.1-litre capacity, ensuring efficiency of production and the highest quality output.

Achieve high-quality results from precision hardware

Advanced technologies developed exclusively for Epson are at the heart of our SureColor SC-F dye sublimation series. Businesses choose Epson products to maximise their productivity, achieve superior results and lower the total cost of ownership of their printer.

Intelligent inks

Epson UltraChrome DS ink produces vibrant colours, sharp contours and smooth gradations. Light/wash fastness is excellent and our inks are resistant to abrasion and perspiration. Our PrecisionDot image processing technology is a high-quality mode that combines three technologies that improve print quality: Half Tone Module, LUT and Micro Weave.

Quality you can rely on

Made with laser-welded frames², precise imaging technology and employing advancements from Epson's own robotic solutions, each printer is made to demonstrate Epson's total commitment to delivering quality.

Premium image quality

The Epson PrecisionCore TFP printhead produces exceptional image quality with its 360dpi printhead nozzle configuration. This produces a maximum resolution of up to 720 x 1440 dpi.

Comprehensive service and support

SureColor SC-F series printers come with a standard one-year warranty as standard with the option of extended coverage.

Product Specification

Model	SureColor SC-F9400
