PRODUCT OVERVIEW

- With 6 rollers, projects remain smooth and wrinkle-free.
- The 350mm laminating width allows greater speed and variety on projects.
- Precise temperature control by using the internally heated rollers with temperature control which use non-contact infrared sensors.
- Auto jam detection and motorized reverse clear errors.
- Auto shut-down provides safety and conserves energy.
- Designed for hot, cold lamination, mounting and transferring.
- Memory function: Five models are offered. Appropriate temperature and speed can be set in the current mode, then it can be used directly.
- Counting function: Quick and easy to understand the working state.
- 2 Cooling Fans made Super Cooling in order to guarantee the quality of laminating.
- High quality switching power supply made it stable and reliable.
- The sturdy metal housing is designed for durability and lasting performance.
