Source of Digital Solutions...

Digital Star Qatar has been leading the digital scene in Doha for over 10 years, as suppliers and distributors of signage, advertising and LED solutions. Our commitment to providing the best quality machinery and top-notch technology from around the world has enabled us to set new and improved standards in sign and digital printing industries. DSQ has developed into a true trendsetter and a reliable destination for customers seeking exhaustive custom and wholesale solutions. From sign makers, digital print houses, POS/POP makers, retail fit-out companies, to exhibition stand builders, construction companies and glass and aluminum fabricators industries, we promise to take your business to unprecedented levels

UV Printing Machine
NC-UL600

A UV inkjet printer uses a UV digital printing process to apply a 2D digital image to a 3D object. A digital inkjet printer propels tiny droplets of ink onto paper, plastic, glass, metal, and other substrates in order to form an image through the use of an ink delivery system, also known as a print head. The image is sent to the printer digitally and is an exact representation of the digital image. The digital UV inkjet printers are mainly used in home appliances, sports products, household goods, and luggage.

ADVANTAGES

- 2400dpi high-precision printing, delicate picture quality.
- The digital UV inkjet printer can achieve 13mm high drop printing
- White color varnish print at the same time in flatbed, 3D relief printing
- Three height levels of the table, 200mm height each level, print height 600mm
- The UV digital inkjet printer is suitable for the luggage industry, household products industry, sporting goods industry, home appliance industry, and other industries

High resolution

high speed

Intelligent

easy operate

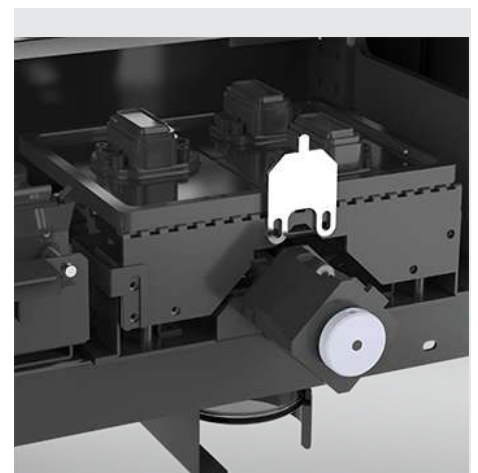

small volume

British imported **XAAR 1201** print head. High precision, strong jetting force, stable performance.

Standard scale printing platform. The digital inkjet printer is made of aluminum plate material, internal honeycomb structure, not easy to deform, high flatness

Lifting ink station design. Driven by motor, accurately control the position, intelligently protect the print head

600mm print height.
Support 600mm height printing to meet the printing needs of different product thicknesses

Independent flash tank.
Exclusive design on the left side for easy cleaning of flash ink waste.

Intelligent ink supply system.
With ink stirring, filter, & ink volume alarm functions to ensure smooth ink supply.

APPLICATION FIELD

Handicraft Industry Arrings, Bookmarks, Rubik's Cube, Bowling Balls, Fridge Magnets, Brooches, Buttons, Keychains, Pendants, Small Badges, Small Metal Billboard, Bottle Openers etc.,
