PRODUCT OVERVIEW

The ZSK Compact Single Head Bridge Style Machine has the same open back frame design as multi-head machines and is the most industrious commercial single-head on the market. With the bridge-type build style on a single head, the ZSK offers the most versatile frame - providing a sturdy and virtually vibration-free piece of equipment. This frame style is the most preferred model for customers who are using the equipment as a production machine.

The Sprint 6 is a 12-needle single head class 4 style (bridge style) embroidery machine. This machine can adapt specialty devices (such as sequins or cording) without changing any electronic board components or altering any electrical component - ZSK produces the most compatible & versatile machine in the world. This machine is recommended for start up embroidery businesses as well as any size embroidery shop. Not only does this equipment provide embroidery decoration, but also allows for a wide range of embellishment options. Use it as embroidery only or add unique options to diversify your business.

NEW - Tubular Arm - The ZSK now has the smallest tubular arm in the industry worldwide! The new curved design now allows for the narrowest of textiles to be embroidered and those hard to embroider areas such as shirt pockets, fronts of shoes, baby items, shirt cuffs, etc. In addition to the size, the arm is also longer to fit a wider range of materials as well - it has been extended 20 mm for narrow textiles.

MAIN FEATURES

- One garment at a time

PRODUCT OUTPUT

FLAT EMBROIDERY

Flat embroidery with border frame meets the highest demands in all application areas. Flat stitch offers almost endless possibilities to optimally present your motif.

CAP

The cap extension allows you to efficiently implement your ideas in the capstick area and thus the production of individual caps in small series.

SHOES

Embroidering a sports shoe with its name, the name of your favourite team or your favourite player makes it a unique and very personal object.

NAME BADGES

With the help of the stencil template frame, name badges can be created efficiently, through simple handling and with little effort with different or even the same names.

SHIRT POCKETS

The embroidery of shirt pockets with personal initials, a company logo or fashionable application individualizes the garment and is an expression of personality or corporate identity.

TUBULAR

Embroider on most standard garments and textiles with the Premium Allied Grid-Lock plastic tubular frames, available in various sizes.

HOOPMASTER MAGNETIC

Flat embroidery with border frame meets the highest demands in all application areas. Flat stitch offers almost endless possibilities to optimally present your motif.

CYLINDER

The cap extension allows you to efficiently implement your ideas in the capstick area and thus the production of individual caps in small series.

SEQUINS

Embroidering a sports shoe with its name, the name of your favourite team or your favourite player makes it a unique and very personal object.

BEADS/PEARLS

With the help of the stencil template frame, name badges can be created efficiently, through simple handling and with little effort with different or even the same names.

CORDING

The embroidery of shirt pockets with personal initials, a company logo or fashionable application individualizes the garment and is an expression of personality or corporate identity.

BORING

Embroider on most standard garments and textiles with the Premium Allied Grid-Lock plastic tubular frames, available in various sizes.
